Oracle BI Services

Please specify an account that belongs to the local administrators group that has the Log On as a Service right granted for the machine that will participate in a cluster. This account will be used by the Oracle BI services below.

Specify the name in the format domain/user, such as Oracle/user1.

Else by default, the LocalSystem account is used by leaving the account information alone.

Account:	<input type="text" value="LocalSystem"/>
Password:	<input type="password" value="*****"/>
Confirm password:	<input type="password" value="*****"/>

If you choose Automatic, Oracle BI service(s) will be started at machine startup time. Please note this will increase the machine boot up time.

Service Start Type:

Oracle BI Server	<input type="text" value="Automatic"/>
------------------	--

InstallShield

<input type="button" value=" < Back"/>	<input type="button" value=" Next >"/>	<input type="button" value=" Cancel"/>	<input type="button" value=" Help"/>
---	---	--	--------------------------------------

Service Start Type:

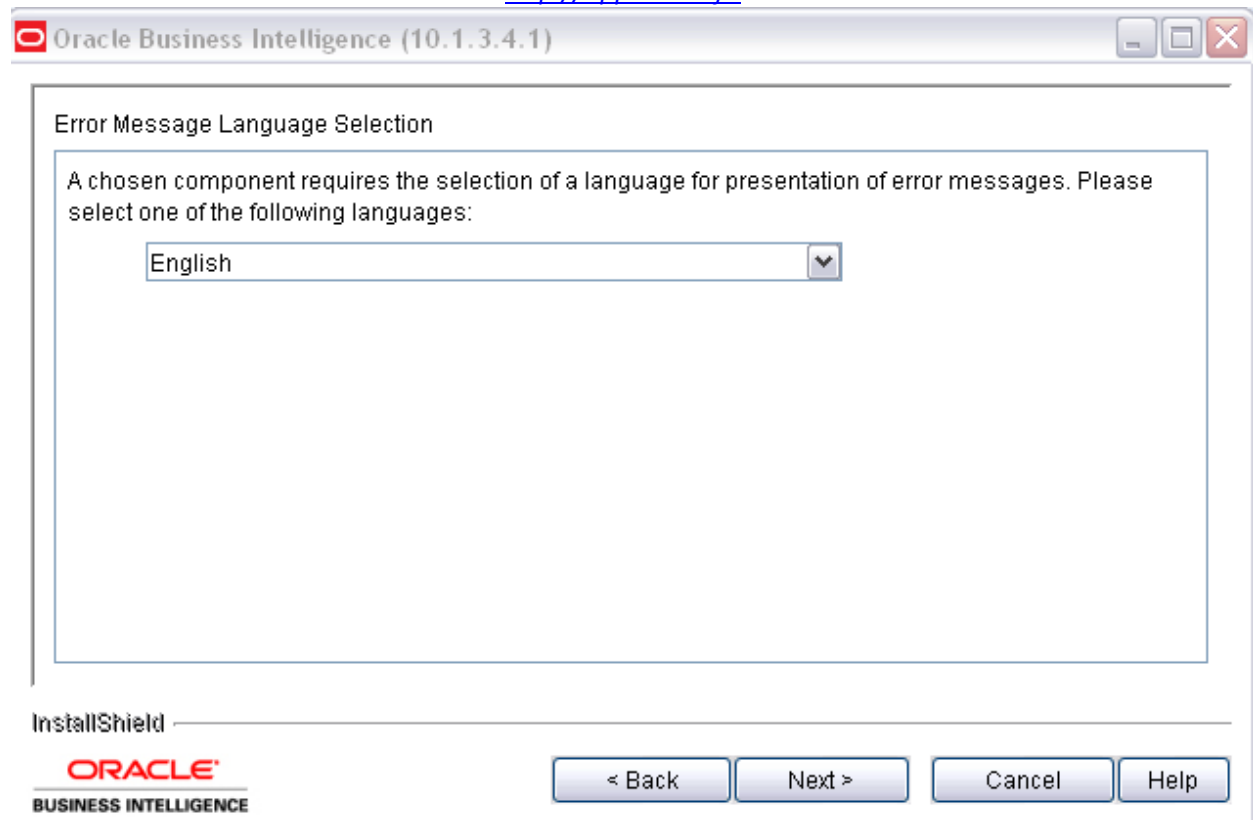

Oracle BI Server	<input type="text" value="Automatic"/>
Oracle BI Scheduler	<input type="text" value="Manual"/>
Oracle BI Cluster Controller	<input type="text" value="Manual"/>
Oracle BI Presentation Server	<input type="text" value="Automatic"/>
Oracle BI Java Host	<input type="text" value="Automatic"/>

InstallShield

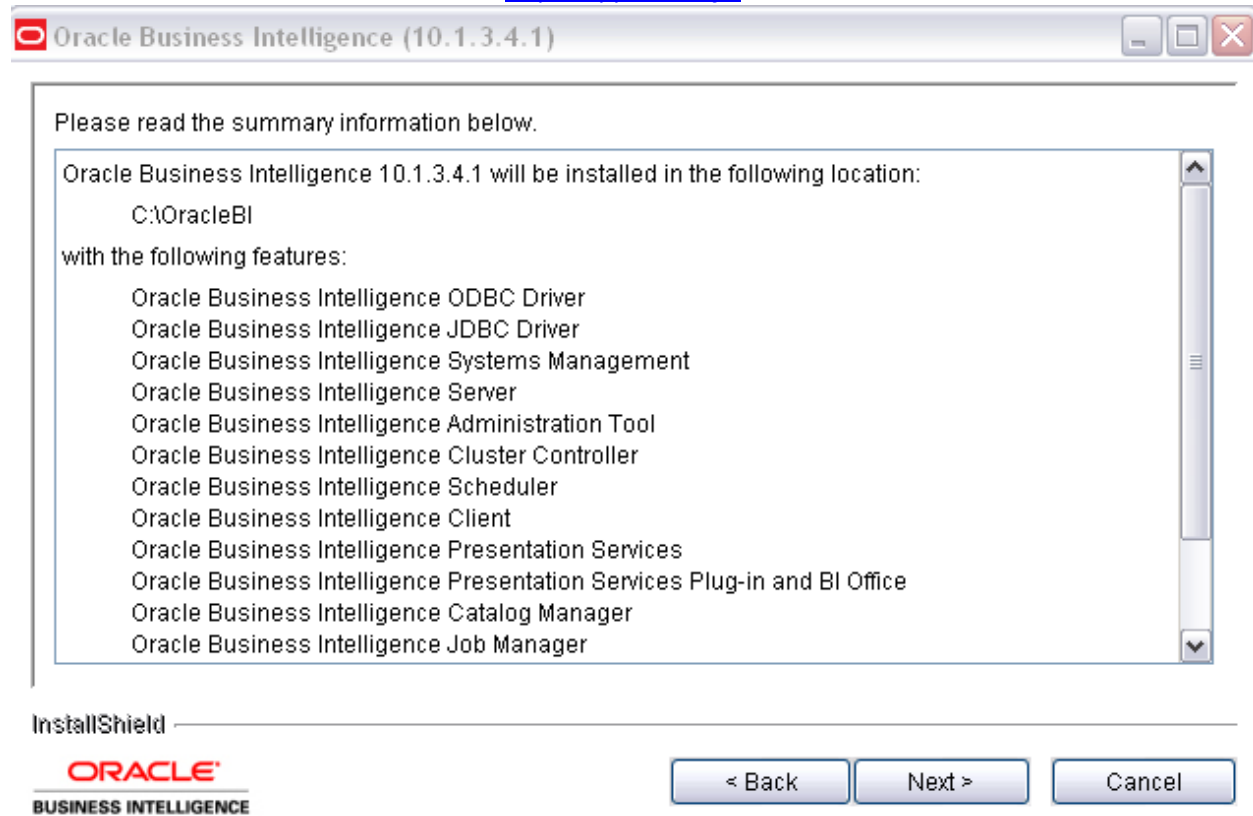

<input type="button" value=" < Back"/>	<input type="button" value=" Next >"/>	<input type="button" value=" Cancel"/>	<input type="button" value=" Help"/>
---	---	--	--------------------------------------

The screenshot shows the Oracle Enterprise Manager 10g Application Server Control interface. The page title is "OC4J: home" and it was last refreshed on Jan 18, 2011 11:04:42 AM. The navigation menu includes Home, Applications, Web Services, Performance, and Administration. The "General" section shows the OC4J status as "Up" with a green checkmark icon. Key details include: Start Time: Jan 18, 2011 11:01:18 PM IST; Version: 10.1.3.1.0; Oracle Home: /d02/oracle/obi/OracleBI/oc4j_bi; Host: racerp.oracle.com; Virtual Machines: 1; Notifications: 0. There are "Stop" and "Restart" buttons. The "Response and Load" section contains a line graph showing Request Processing Time (seconds) and Requests per second over time. The graph shows a steady state with some minor fluctuations. The footer includes "Copyright ©1998-2008 Oracle. All rights reserved." and links for Setup, Logs, Help, and Logout.

BI Publisher

<http://racerp.oracle.com:9704/xmlpserver>

The screenshot shows the Oracle BI Publisher Enterprise login page. The browser's address bar displays "http://racerp.oracle.com:9704/xmlpserver". The page header includes "ORACLE BI Publisher Enterprise". Below the header is a navigation bar with three images: a person in a white shirt, a network diagram, and a person at a computer. The main content area features a large globe image on the left and a login form on the right. The login form has fields for "Username" and "Password", a "Please contact administrator" message, and a "Sign In" button.
